Spring and Summer Greetings...

As of this writing, there still are a few weeks of winter ahead of us, but the groundhog did not see his shadow, so I'm optimistic that spring will come early to the parks with a splendid summer to follow. On behalf of the Town Board, the Recreation and Parks Advisory Committee and the Recreation and Parks Department I am happy to present the Recreation and Parks Department's 2016 Summer Program Brochure.

Despite budgetary constraints, our creative Recreation and Parks Department staff have not only maintained existing facilities and programs, but have improved and expanded upon them. You will find many of the programs you've enjoyed in the past and more, along with various community events to enjoy. I invite you and your family to take a few minutes to enjoy browsing through this brochure.

Once again we offer you the convenience of online registration for all summer programs, including the pools (remember that registration entitles you to use of all three hamlet pools). Online program registration is part of the Town's continuing plan to expand resident and business accessibility and interaction with the Town online.

So without further ado, I present a sneak peek of what you can expect this spring/summer:

- **Summer Concert at the Katonah Memorial Park** on Friday, July 8. This event is cosponsored by the Katonah Memorial Park Association.
- **Movie Night at the Bedford Village Memorial Park**, Friday, July 15, cosponsored by the Bedford Village Chowder & Marching Club.
- **Sizzling Sundays** at each hamlet pool - this is a free event for pool members to include a DJ/music; games; food & prizes
- **New and expanded summer entertainment** offerings at our three parks facilities this summer.
- **Expanded pool hours** the week of June 27th through July 1st prior to the start of summer day camps (July 6)
- **A variety of late June sports clinic** offerings and a theatre workshop program
- **Our seniors** will travel to Westchester Broadway Theatre; Casinos; Metropolitan Museum of Art & the Butterfly Conservatory and will have a pool picnic later this summer.
- **New partnership with BOCES of Northern Westchester** to offer after school tech programs for 12-15 year olds
- The Town Board is delighted to report that the main auditorium at the Bedford Hills Community House has **new air conditioning** which will make summer use of the building a much "cooler" experience.
- The Town Board recently was notified that the Marsh Estate named the Bedford Hills Community House as a beneficiary resulting in a substantial financial gift to the Town. We are working with the Recreation and Parks Department on scheduling interior improvements at the Community House later this year.
- Save the date for the **2nd Family Campout at Katonah Memorial Park** on Saturday September 17. This event was a huge success in its inaugural year and will include participation from various local community organizations.

Check our Community Calendar for other events as they are scheduled. You can find it on www.bedfordny.gov home page under "Events" (under the menu bar). Also please be sure to sign up for my weekly and monthly eNews if you aren't already a subscriber. It's easy to do - also on the home page.

Warm regards,

Chris Burdick

Town Supervisor Chris Burdick, the Town Board, Bedford Tree Advisory Board chairman Michael Serio and members of the Tree Advisory Board (TAB) invite town residents to join in celebrating Arbor Day 2016 with a tree planting ceremony scheduled for Saturday April 16, 9:00 am at a site to be determined by the Tree Advisory Board (rain date April 23). The site selected will be announced on the Town website, in the "What's New" Town's weekly message and in the press. On behalf of the Town Board, Supervisor Burdick, will read the annual Town of Bedford Arbor Day proclamation. New York State Department of Environmental Conserva-

tion on behalf of the National Arbor Day Foundation hopes to be available to present the "Tree City USA" designation award to the Town of Bedford. George Profous, New York Regional Coordinator has been invited to this year's celebration. The "Tree City USA" honor is bestowed on communities that have met four qualification standards. They include having a Tree Board or Department, a tree care ordinance, a comprehensive forestry program and have an annual Arbor Day observance and official proclamation. This is the 16th year Bedford has been designated as a "Tree City USA". The Town Board is very pleased that the Tree Advisory Board's ongoing work with the National Arbor Day Foundation has secured this wonderful designation for the Town of Bedford and appreciates the role the TAB serves in working with the Town Board in preserving, protecting, maintaining existing Town owned trees and the planting of trees in Bedford.

SWIM AND DIVE TEAMS CALL FOR PARENT VOLUNTEERS

Like most of the youth sports programs found in the Town of Bedford the success of the swim and dive teams requires the involvement of many volunteer parents. Being organized and having the appropriate number of volunteers to perform a variety of committee assignments before, during and after the season enhances the positive experience we hope to achieve for our young swimmers and divers. The Recreation and Parks Department strongly encourages parents to be a partner in their child / children's summer recreational swimming and diving experience. Please help us with our swim and dive teams.

VOLUNTEERS ARE ALWAYS NEEDED!! There is a lot of coordination that goes into the swim & dive team program - volunteers are always needed to help out at meets (scorers; ribbon writers; etc) and behind the scenes (ordering ribbons; trophies; planning team dinners; etc).

Please reach out to your team's rep & PAY IT FORWARD!

PARENTAL RESPONSIBILITY

Parents are responsible for the supervision of their children within the pool complex. Actions of improperly supervised children put the children at risk and can distract the lifeguards from their primary responsibilities. Pool rules state that children under age 10 must be accompanied by a person age 14 or older. Although children 10 and over are permitted to attend unaccompanied, parents are still responsible for seeing that the child knows and abides by pool rules and regulations.

FLOATATION DEVICES

Only US Coast Guard approved Type III lifesaving devices are allowed at our Town pools. All other flotation devices (inflatable swimmies, one-piece suits with styrofoam inserts, etc) are swim aides and not permissible. Each pool has a limited number of approved Type III vests for patrons to borrow when they attend our pools. **Although US Coast Guard approved Type III devices are allowable this does not replace the role of parental supervision of their child.** All parents must directly supervise their child in and around the water, particularly when the child is being supported by a Type III PFD. Inner tubes, kickboards and/or noodles during special events/adult swim are permissible with approval by the pool director.

EVACUATION PROCEDURE

During the summer season there is always the possibility of severe weather. When a storm approaches at our pools it is extremely important to take immediate action for the safety of our patrons and staff. Below details the emergency evacuation procedure at our pools:

1. At the sound of the first thunderclap, staff will blow their whistle and an announcement will be made over the PA system for all patrons to evacuate the pools and seek shelter.
2. Patrons may be instructed to seek shelter in the breezeway/locker room area or depending on the anticipated severity, directed to seek shelter in their cars.
3. Patrons will not be allowed back into the water until 20 minutes after the last sound of thunder is heard or sign of lightning

KEEP IT CLEAN

Our parks staff does an outstanding job keeping our facilities safe and clean. The Town of Bedford encourages recycling at all our facilities and has placed the appropriate receptacles throughout our parks and pools. We ask our patrons to help us to keep your town parks beautiful by following a few simple guidelines:

1. Dispose of trash/recyclables in the proper receptacles
2. No glass containers allowed in the pool facilities
3. No alcoholic beverages allowed in the pool/park facilities
4. No smoking in the pool facilities or within 50' of pool entrances and in most other areas of the park
5. When using the bathrooms, dispose diapers, sanitary products in the receptacles provided

NOTE: During the 6 week camp season, the men's and ladies bathrooms will be closed between the hours of 2:45-3:00pm for cleaning. The family restrooms will remain open for your use at that time.

KEEP IT SANITARY

Regular everyday diapers are not permitted in any pool. They expand and fall apart causing an unsanitary condition in the water. Non-toilet trained children must wear swim diapers with rubber swim pants worn over the swim diaper and are only allowed in the wading pool. Parents should change the swim diaper frequently/toilet their children frequently to prevent any accidents from happening. Should a fecal or vomit incident occur in the pool, the pool must be closed for a minimum of 30 minutes and, depending on the severity of the incident, can be closed for the entire day. Therefore we encourage all parents of young children to please remember to be cognizant of bathroom breaks. In addition, please keep your youngster (and yourself) hydrated, watch out for extreme heat conditions and food intake that could result in upset stomachs.

CONCESSION STAND

The Town of Bedford has a contractual agreement with an outside vendor for the concession stands at each pool facility. Therefore, outside food from other vendors/other means is prohibited within the pool facility. (ie; pizza/food delivery, bringing large roller type coolers). Persons will be permitted to bring small hand-held coolers into the facility. Concession hours, menu, and prices will be posted near each concession stand.

LAP LANES

Many of our patrons enjoy lap swimming at our town pools. We ask that you keep these rules and courtesies in mind when swimming laps:

1. No swimmer is granted exclusive use of a lap lane
2. Swimmers entering an occupied lane must wait and notify the swimmer in the lane
3. Swimmers are not to rest at the end of the pool when there are multiple swimmers in a lane
4. When there is only one person per lane, swim normally
5. When there are two people per lane, split the lane with one swimmer on each side of the black line
6. When there are three or more swimmers per lane, circle swim to the right only
7. Please do not cut across or allow children to cut across lap lanes

SUNSCREEN PROTECTION/APPLICATION

Shade and effective use of sunscreen are your best protection against the harmful rays of the sun that can cause skin cancer. Though you may love that tan you should take precautions when sunbathing. For your protection you should use a broad spectrum sunscreen that protects against both UVA & UVB rays with a skin protection factor (spf) of at least 15, preferably 30. Sunscreen must be applied properly in order to be effective. Sunscreen should be applied 30 minutes before exposure to the sun and should be applied liberally. It should be reapplied after swimming/sweating/towel drying off. You should check your products label for how often to re-apply as it varies based on water resistant or water proof, generally anywhere from 40-80 minutes. Always remember that the "triangle of danger", the nose, eyes and mouth should be given special attention. Wearing a wide brimmed hat to protect your face; neck and ears and using sunglasses with 100 percent UVA/UVB protection will also help to protect you from the sun's harmful rays. When using a sunscreen spray it should be applied in a well-ventilated area and you should keep your eyes & mouth closed. When applying sunscreen spray outdoors please be cognizant of those around you. Be careful not to spray where the residual spray will affect a neighboring patron. When possible please step away and spray.

INCLEMENT WEATHER POLICY

In the event of an emergency closing due to weather or other unforeseen circumstances, pool members who have brought guests will be entitled to a **credit voucher** for future admission if they were at the pool less than one hour AND if the pool stays closed for the rest of the day.

The time of admission is tracked through our pass management system. Admission time will be compared with the time of the pool closure. If they are less than one hour apart the pool member is entitled to a credit voucher. To receive the credit voucher the pool member must come to the Recreation and Parks Office no sooner than the following day (Monday-Friday, 8:30am-4:30pm). Credit vouchers will only be issued to the pool member regardless of who pays the guest fee.

No refunds will be given at any time.

One Bedford resident stops making excuses and starts her energy assessment

by Josephine Ziegler, for Energize Bedford

I've finally decided to take the plunge and schedule an energy assessment with Energize Bedford. I've used every excuse in the book to put it off: "I just have to clean out the attic first," and "I wouldn't know where to begin."

My husband and I are your typical Katonah residents. We moved to Katonah in 2000 after falling in love with our old 1920's cottage in the heart of the village, just a short walk to the elementary school and town. The original part of our house was built in 1926 with a second floor addition built in 2003 so the result is that half our house is cozy and warm, and the other half has a constant breeze blowing through it from October to March.

We are chronic "do-it-yourself-er's" and procrastinators which inevitably leads to a pile of unfinished projects. In fact, we've perfected the "Apology Tour" when friends come over. "Pay no attention to the half-done crown molding and partially painted ceiling." A little handyman self-deprecating humor goes a long way.

So you can imagine that making the decision to bring a contractor through our house for a "warts and all" tour is a bit hard to swallow. But with winter around the corner we knew it was time to seal up the drafts, lower our heating bills, and make sure our home was working as efficiently as possible. Besides, do we really want our insecurities to stand in the way of saving money and a more comfortable home?

We've decided to suck it up and put on our big boy pants and move ahead with having our assessment done. My first step was to go online at EnergizeNY.org and click on sign up. In all of ten minutes I was done with my application! That was it; my coffee didn't have a chance to get cold. No paperwork, nothing to sign. Honestly, signing my kids up for summer camp took longer. I'm keeping my eye out for my official approval. Stay tuned.

NEW SEPTIC INSPECTION LAW & NEW REIMBURSEMENT PROGRAM

To protect the quality of the drinking water for Bedford and New York City, the NYS Department of Environmental Conservation and Westchester County have developed a new Septic Inspection Ordinance.

This law requires that you have a Westchester County licensed service provider pump your tank and inspect your system at least once every five years. The contractor is required to file a "Septic System Data Form" with the County and should give you a copy. The Town will review the County's information and determine compliance with the new law.

If the County Department of Health has issued you a Notice of Non-Compliance that your system is failing, you should also go to the Town's website or call 666-4434 to find out about Bedford's septic system repair or replacement reimbursement program. You may be eligible for reimbursement up to 50% of the cost of your system's repair or replacement provided you meet certain conditions, including Department of Health approval for the work performed.

TOWN OF BEDFORD PLANNING DEPARTMENT: P: 666-4434 • E-MAIL: PLANNING@BEDFORDNY.GOV

What can RESIDENTS DO **TO REDUCE** phosphorus loads?

The majority of the Town of Bedford is within the New York City Watershed, which provides drinking water to New York City and approximately 85% of Westchester County. Reservoirs in this area have been found to have a higher amount of phosphorus than desired, resulting in increased algae growth. Excessive algae growth causes water quality problems such as low oxygen levels and increased levels of metals and organic chemicals. This impacts drinking water quality, reduces life-sustaining oxygen to fish and other aquatic life, and impacts reservoir aesthetics.

Do Not Use Detergents Containing Phosphate

Septic systems can leach phosphorus into the environment. Using detergents containing no phosphate can substantially reduce phosphorus loads from your home. This applies to both clothes and dish detergents.

Be Smart About Fertilizer Use

Phosphorus fertilizer washes off lawns and gardens and flows into streams and reservoirs. Best practices include:

- Perform annual soil test and seasonal pH test before applying any fertilizer product. Ninety percent of the lawns in Westchester have adequate levels of phosphorous so it is very likely that you won't need to apply extra phosphorous in order to get a healthy, green lawn.
- Apply only the amount of fertilizer deemed necessary as a result of soil tests.
- Apply only slow-release fertilizers.
- Use products containing low concentrations of nitrogen, and no phosphorus where possible.
- Don't apply any fertilizer between December 1st and April 1st to avoid runoff issues associated with snowmelt or rains on frozen ground.
- Don't apply fertilizer to any impervious surfaces, such as pavement and sidewalks. If applied accidentally, clean it up immediately to ensure it won't be washed into streets, storm drains and/or water bodies. Do not hose down fertilizer spills on impervious surfaces.
- Avoid application within 24 hours of an anticipated rain event.
- Avoid heavy watering or irrigation for 24 hours after fertilizer application.

Phosphorus concerns with grass clippings and leaves

When rainwater carries leaves and grass clippings down streets and into lakes and ponds, they harm water quality.

When leaves and grass decay, they release phosphorus.

It is suggested that residents use lawn mowers that chop up grass clippings and leave them on the lawn. These mulching mowers reduce the need for fertilizers. Place leaves along the edge of your property only in designated hamlet leaf collection areas, and only between October 1 and November 15. **Please note that state regulators have placed more stringent requirements on the amount of time that leaves can be left curbside due to phosphorus concerns. As a results of this, the Town will strictly adhere to the October 1 - November 15 period mentioned above.** At any other time, all leaves must be bagged.

Construction Sites as a Source of Phosphorus

Phosphorus attached to sediment leaving construction sites is a major source of stormwater phosphorus. Contractors must comply with the Town's Erosion and Sediment Control standards, which can be obtained by contacting the Building Department.
