**RE: PIN 8812.44, TRAFFIC SIGNAL IMPROVEMENTS: NY 22 @ NY 172  
TOWN OF BEDFORD, WESTCHESTER COUNTY**

Dear Mr. Burdick:

I am pleased to inform you that the New York State Department of Transportation has started the design phase on a project to install a new three color signal to replace the existing flashing signal at the intersection of Route 22 and Route 172 at the southern end of the Route 22/172 overlap. The project will include only the work needed to install the new traffic signal and to remove the existing flashing signal.

During construction, the existing flashing signal will remain in operation until the new three color signal is operational.

At this time it is anticipated that bids for the construction contract will be opened in February 2015, and the new signal will be installed in the 2015 construction season.

If you have any questions, need additional information or would like to meet to discuss the project, please contact Doug Cotton at (845) 431-5858 or [doug.cotton@dot.ny.gov](mailto:doug.cotton@dot.ny.gov).

Sincerely,

A handwritten signature in cursive script, appearing to read "Nicolas A. Choubah".

Nicolas A. Choubah, P.E.  
Acting Regional Design Engineer
